## **A Note From the Board**

It has been a trying year for many of us as most have been touched personally by the effects of the country's recession. You may have seen the value of your 401K plummet or the value of your home decrease. Some of you may know someone who has lost their job as the unemployment rate hovers around 9.7 percent. Can you imagine if, on top of all this, you found out you had an immediate family member with a terminal illness. The families the Billy Mock Foundation helps have all these economic issues to deal with and more.

We have much to learn from these families. For most of us, it helps keep our lives in proper perspective. Nothing is more important than the health of our families. During these unsettling times we often get caught up in everyday challenges causing us to forget that our lives should really be about the ones we love, not about the things we acquire. Think of the families that are so brave, so strong and yet so broken hearted. Dealing with the effects of an illness, the uncertainty of treatments and the possibility of losing a loved one too early is an agonizing process, one that wreaks havoc on the soul.

We at the Billy Mock Foundation ask you to be grateful for your families and the love you have in your lives. Celebrate that love and be generous. Be generous to those that have unspeakable challenges. For the past two years you have been exceptionally generous and you have given us the opportunity to help families in need. The ability for us to continue our mission rests in your hands. We thank you from the bottom of our hearts for your ongoing support.

## **Remembering Billy**

Billy Mock loved life, and life it seemed loved Billy. Billy Mock was a loving Christian with a dynamic enthusiasm for life. His infectious positive attitude, ever-present smile and vibrant personality literally impacted the lives of thousands of people. Billy began fighting brain cancer in 2005. Cancer brought life as he knew it to an abrupt unexpected end. A champion, he vied against death with courage and dignity until cancer claimed him in June 2007. Billy was 13 years old.
